

# Distribution, Deployment & Installation Services

Providing the Help You Need to Make the Project Successful

**ingenico**

Whether you are deploying to a new location, upgrading an existing location, or performing an exchange, our Customer Care Program services can help. We will customize your configuration and provide key injection, testing and quality inspection. Your Ingenico smart terminals will then be shipped directly to your customers, along with any specialized Ingenico or third-party accessories.

### **Kitting and Deployment**

offers the Standard or Customized Service packages to end merchants. Both packages include outgoing diagnostics, key injection, direct shipment and a 24/7 portal to place/track orders.

### **Field Installation**

provides on-site options for replacement with a configured payment terminal. We ensure your new equipment is customized, configured, shipped, installed and assist to make sure previously installed equipment is returned by the customer.

### **Remote Site Survey**

is performed by the Ingenico Help Desk to assess your location and prepare for a successful installation.

### **Distribution, Customization and Key Injection**

provides upgrades to your software and new keys injected as required. We are the key holder for the majority of processors and acquirers.

## Adding the enhanced option of Help Desk Services for a full turnkey solution, ensures complete satisfaction for your customers

Ingenico makes ongoing investments in our Customer Care maintenance infrastructure, staff education and development, while continuing to utilize the most progressive policies and procedures. The dedicated maintenance facility in United States is regularly audited and certified by all relevant regulatory organizations including PCI, processors and banks. Ingenico is situated to handle large and complex issues with complete security. Our facilities are physically and electronically secure, with redundant verification and data encryption. No other provider or third-party repair service can offer this level of safeguards.

As part of Ingenico's Customer Care program, the distribution, deployment & installation services include the following features:

Kitting and deployment  
key injection

Customized reporting  
application load

Field installation  
quality assurance

# Ingenico, your undisputed partner
