Discover [the eSign Solution](#)

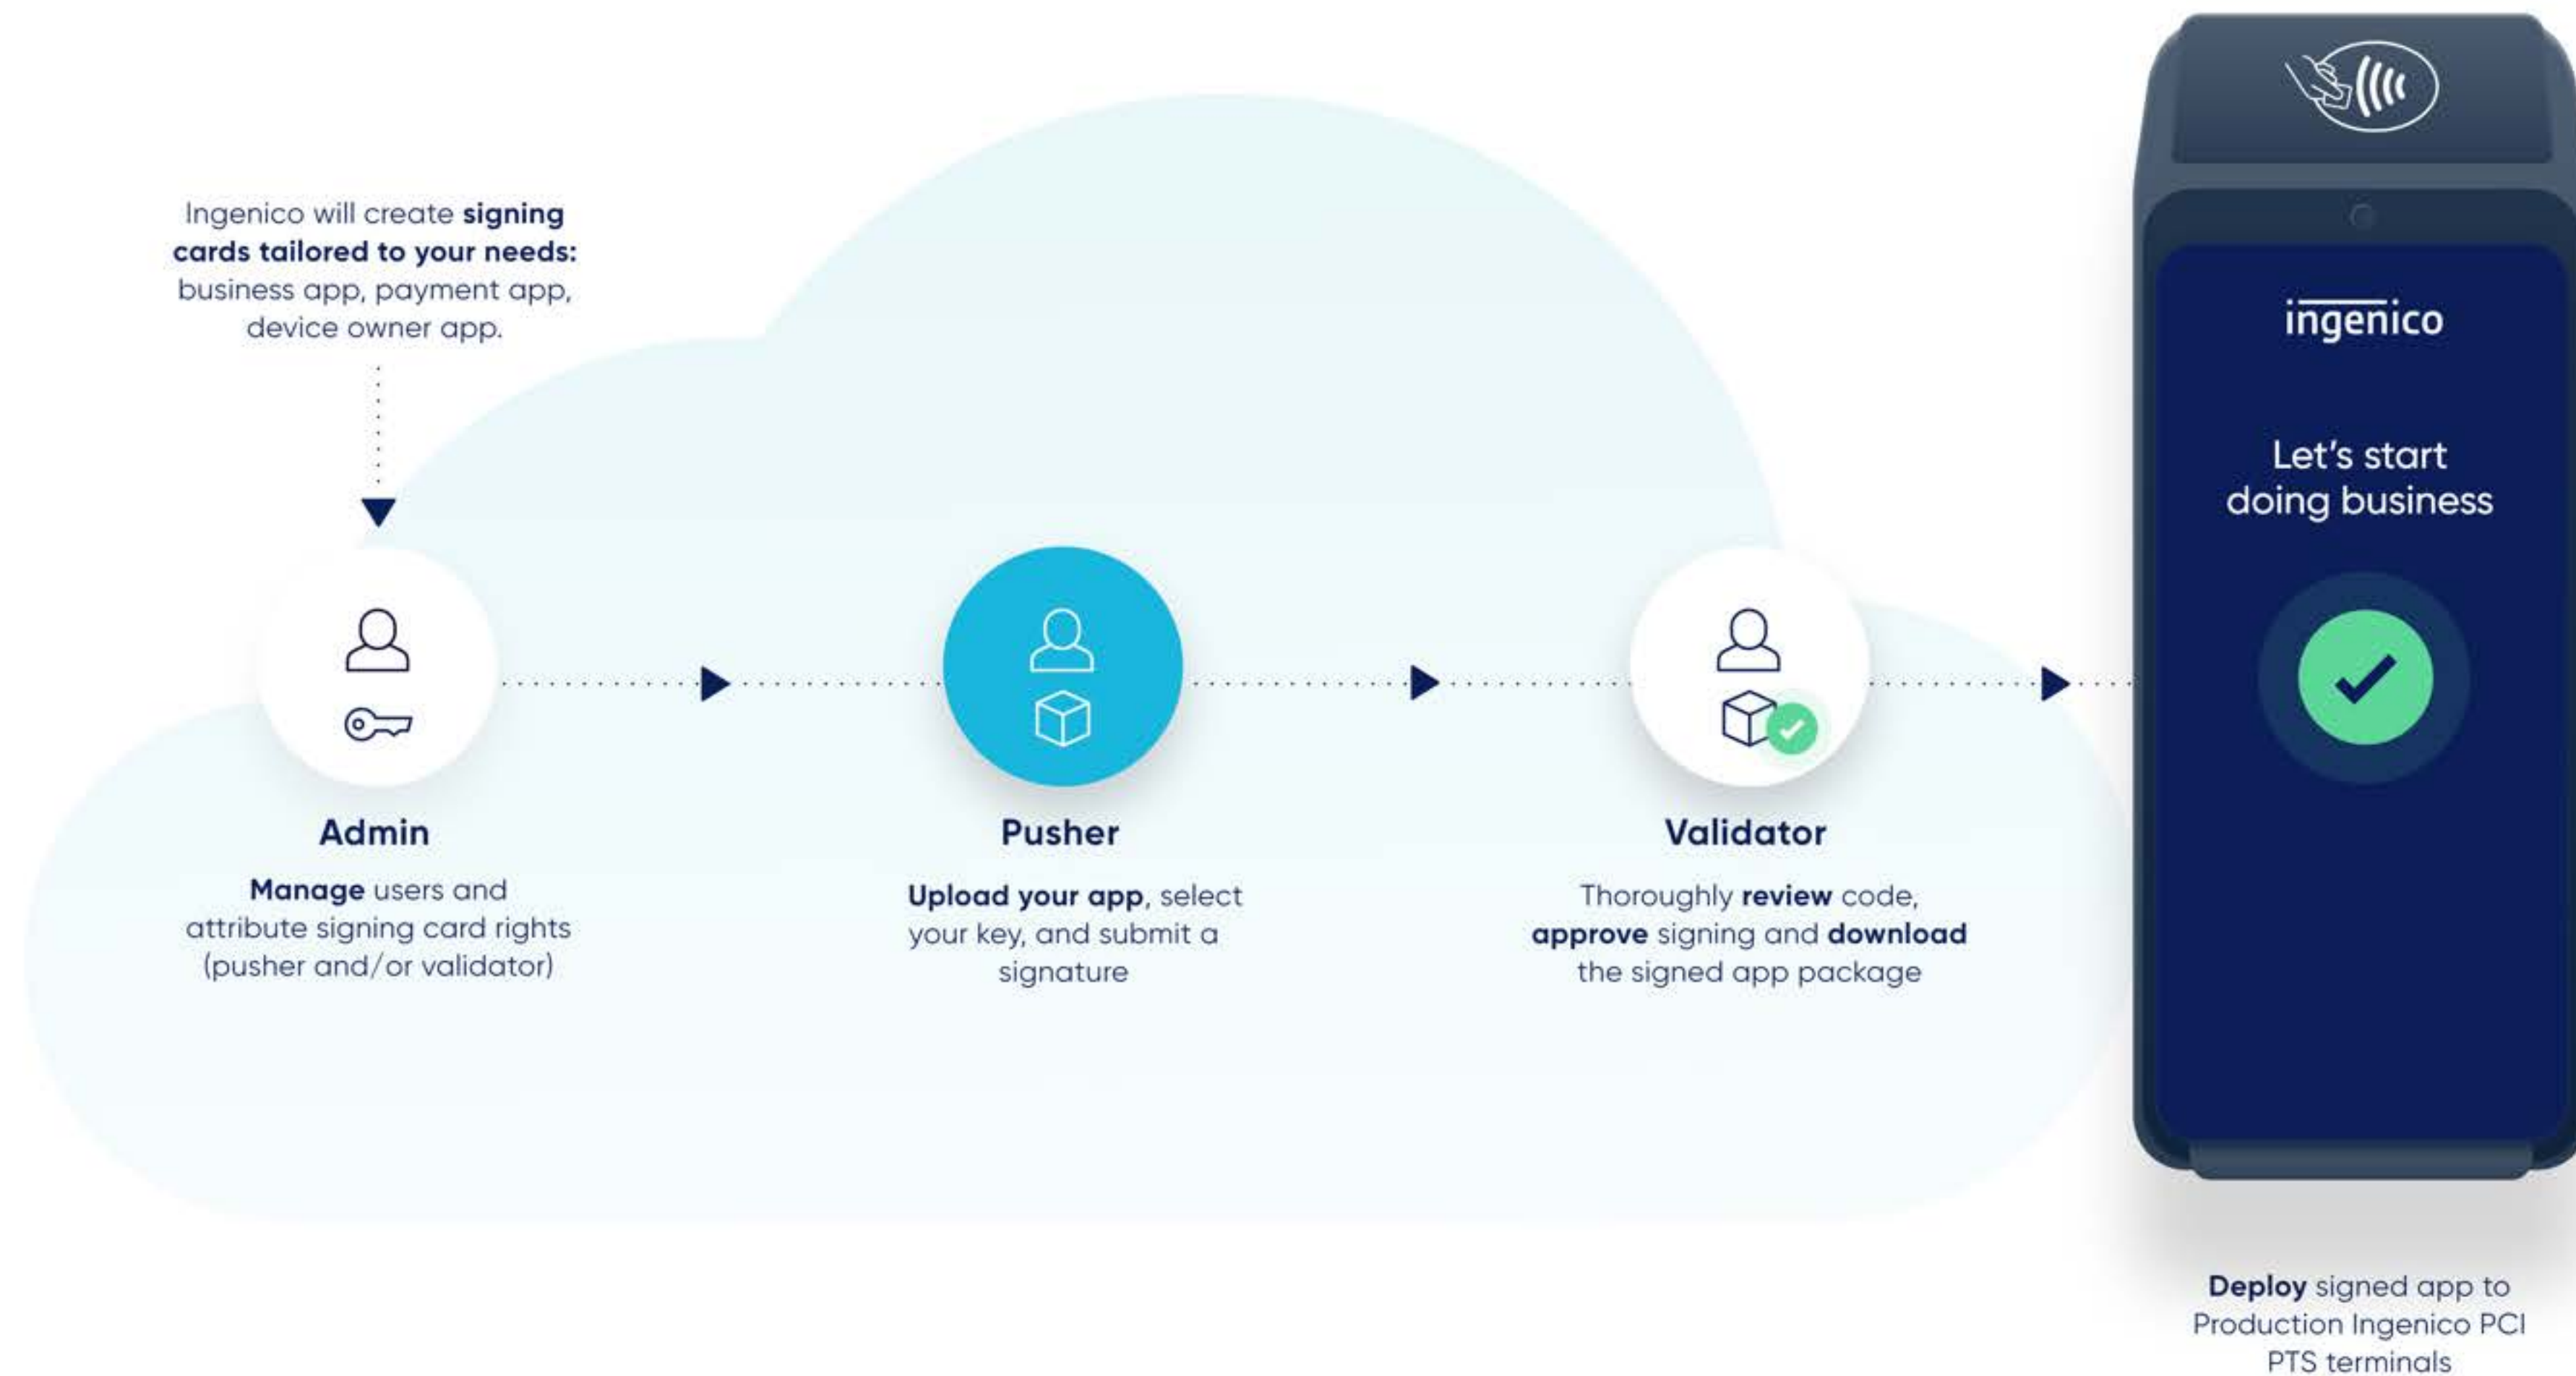

Secure and efficient application signing for payment terminals

As a cloud-based software solution, eSign makes remote signing simple, secure, and seamless. With exclusive cryptographic signing keys and enforced dual control for every application, it delivers enterprise-grade security you can trust. Built for modern payment ecosystems, eSign combines flexible access control with built-in compliance so you can move faster, reduce costs, and stay in control.

? How does it work ?

Sign any application **securely**

Empowering developers and ISVs with secure, seamless remote signing for all types of applications

Secured Solution

Keep **top-tier security** with our remote signature solution

Our remote Signature Solution is built to deliver powerful, enterprise-grade security—without the complexity. With advanced eSign protection at its core, you get seamless security that works effortlessly in the background.

Stay compliant with industry standards and reduce risks while strengthening trust. Simplify operations with remote user management and renewal capabilities that save time and cut costs.

Designed to scale with your business, our solution adapts to payments, loyalty programs, and beyond so you're always ready for what's next. Plus, gain full visibility and control with intuitive monitoring tools that keep you informed at every step.

Smarter security. Stronger performance.
Total peace of mind.

💡 Powerful and flexible solution

Experience unmatched flexibility and convenience

Our signature solution makes it simple to manage signatures, users, and accounts, so you can work more efficiently and focus on your business.

It removes unnecessary steps and tools, making the signing process smooth and straightforward. There's no need for physical user cards, which makes things faster and more convenient for everyone.

You can easily add or replace users without delays. Teams can also review and approve signature requests more efficiently, improving collaboration and saving time.

Less complexity. More control. Better efficiency.

Cost of Ownership

Reduce costs and simplify your operations with an **all-digital solution.**

Adopting our solution will streamline management, cut expenses, and lower your **Total Cost of Ownership.**

By removing the need for hardware and physical cards, you save money and avoid complex handling and storage. Faster setup means you can get started in about a week instead of waiting several weeks.

A single, easy-to-use interface works across all Ingenico terminals TETRA and AXIUM, making daily tasks simple and reducing training needs. As a fully hosted solution, it lowers overall costs while giving you the flexibility to scale as your business grows.

Lower costs. Faster setup. Simpler management.

eSign Solution at a glance

Sign smarter with eSign

Secure payments backed by stronger security, faster signing, and total control.

Security

Give every customer complete peace of mind with dedicated, highly secure signing environments designed to protect what matters most.

Compliance

Sensitive signing operations require two authorized approvers – ensuring PCI compliance by design.

Cloud-delivered

eSign provides secure asynchronous signing without on-site hardware, enabling faster launches and centralized control.

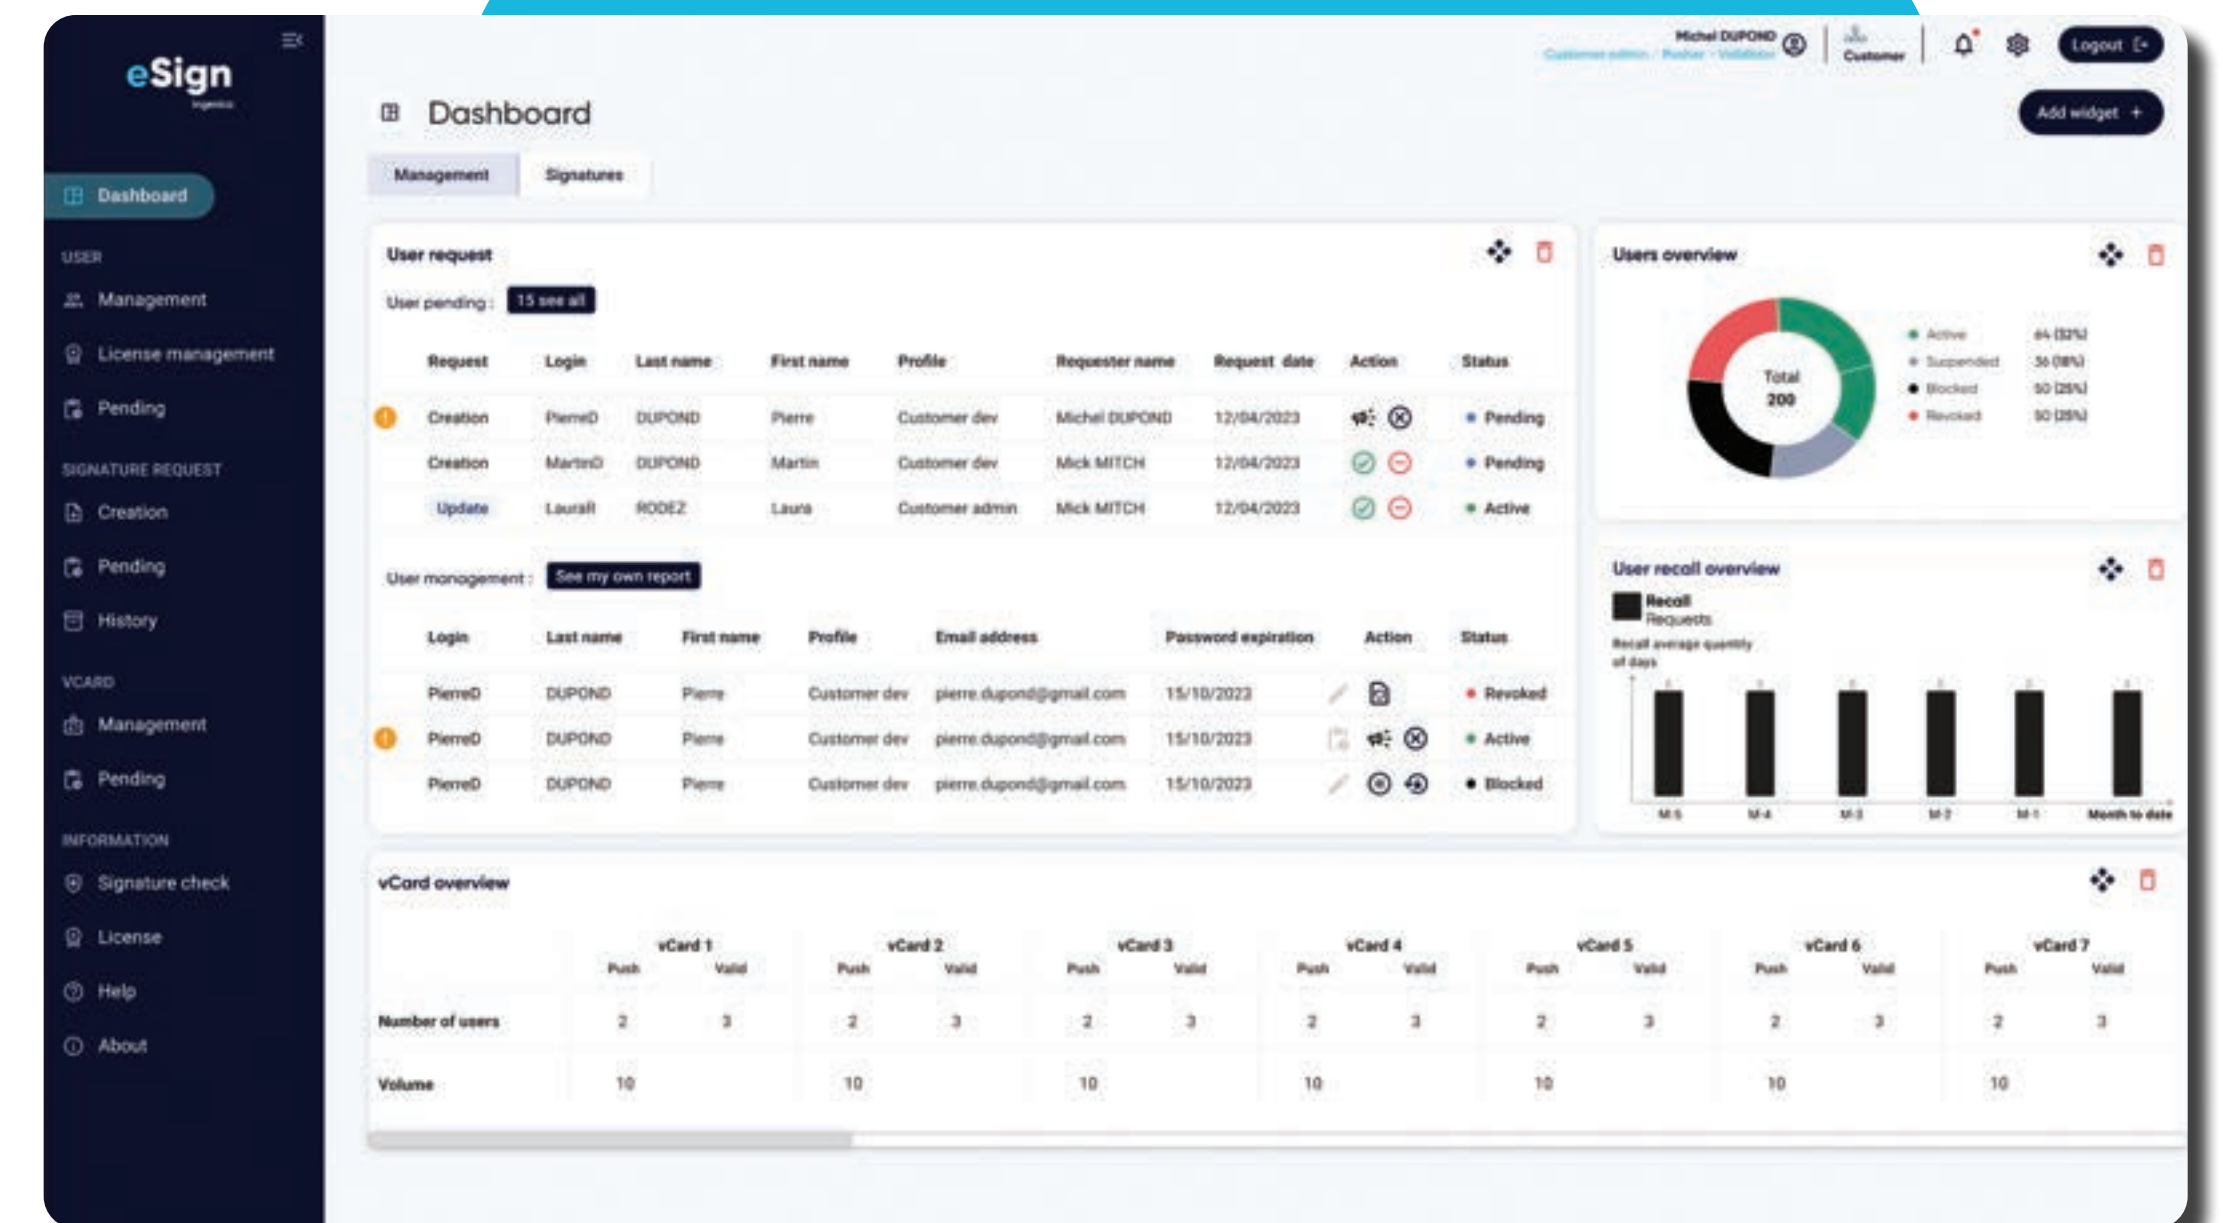

Designed for Payment terminals

TETRA and AXIUM apps use advanced encryption to provide stronger security with smaller digital keys (ECC P-256).

Integrity, Authenticity and Trust

Software files are malware-scanned and encrypted before signing to ensure trust.

Moving Commerce Forward

Ingenico is the global leader in payment acceptance and services. We support our customers, and their customers to do more with payments.

Active in 32 countries, with over 3,000 employees we have been at the forefront of the commerce landscape for over four decades. With more than tens of millions payment devices deployed worldwide, powered by over 2,500 apps, the company is servicing the needs of millions of consumers every day.

Through our advanced integrated solutions and network of partnerships, we simplify the world of payments and bring value added services to move commerce forward
